 - C. No use is hereby authorized unless the use is conducted in a lawful, orderly and peaceful manner. Nothing in this order shall be deemed to authorize any public or private nuisance or to constitute a waiver, exemption or exception to any law, ordinance, order or rule of either the Village of Sussex, the County of Waukesha, the State of Wisconsin, the United States of America or other duly constituted authority, except only to the extent that it authorizes the use of the Subject Property above described in any specific respects described herein. This order shall not be deemed to constitute a building permit, nor shall this order constitute any other license or permit required by Village ordinance or other law.

If based upon that review the use of the property is compatible with the surrounding areas and the Petitioner is in substantial compliance with all terms of this conditional use agreement, then, in that event, the Conditional Use can be automatically renewed for another 5 year term. If based upon that review the Village Administrator finds concerns about compliance with the conditions of the Conditional Use, the Petitioner shall be brought back before the Plan Commission for consideration of the renewal. The Petitioner shall have the responsibility to apply for the renewal by January 30th of the final year of the term of the CU. Failure of Petitioner to apply for the renewal as provided herein shall be deemed a violation of the conditions of the conditional use and may serve as a basis for termination of the conditional use permit. The Plan Commission for the Village of Sussex may add additional conditions at any time.
1. Where the changing character of the surrounding area causes the original conditional use or subsequent approved amendments thereto to no longer be compatible with the surrounding area, or for similar cause, based upon consideration for the public welfare, the conditional use order and any subsequent approved amendments or changes may be terminated by action of the Plan Commission of the Village of Sussex. Such use shall thereafter be classified as a legal nonconforming use as it was permitted to exist on the day it was terminated.
 2. Where this permitted conditional use does not continue in conformity with the conditions of the original approval or subsequent approved amendments or changes, the conditional use grant and any subsequent approved amendments thereto may be amended or terminated by action of the Plan Commission for the Village of Sussex. The Plan Commission for the Village of Sussex may require complete termination of such use.
 3. This conditional use may be reviewed annually. Additionally, this conditional use may be reviewed by the Plan Commission for the Village of Sussex at any time upon complaint or upon Plan Commission initiative.

- J. Upon acceptance by Petitioner of this conditional use permit, all prior conditional use permits granted to the Subject Property are hereby revoked and terminated.
- K. If any aspect of this conditional use permit or any aspect of any plan contemplated and approved under this conditional use is in conflict with any other aspect of the conditional use or any aspect of any plan of the conditional use, the more restrictive provision shall be controlling as determined by the Plan Commission for the Village of Sussex.
- L. If any paragraph or phrase of this conditional use order is declared by a Court of competent jurisdiction to be invalid, unlawful, or unenforceable, such decision shall apply only to the specific paragraph or phrase thereof directly specified in the decision and shall not affect the validity of any other provisions, sections, or portions thereof of this order. The owners must follow the Declarations and By-Laws established for this Condominium Association for items such as payment of bills and no outside storage.

The Petitioner will need to prove the following standards/condition during the Public Hearing process. The Plan Commission may add additional conditions for the Petitioner to meet in the Conditional Use. The shaded areas (if any) reflect items in the code that are unlikely to be meritorious to the application or are administrative in nature.

The Conditional Use Standards:

17.0502 APPLICATION. Applications for conditional use permits shall be made to the Village on forms furnished by the Village and shall include Sections A, E, F and G. and may include any or all of Sections B, C, and D. as determined by the Administrator:

A. Names and addresses of the applicant, owner of the site, or other appropriate entities or persons implementing the project as required by the Administrator.

B. Description of the subject site by lot, block and recorded subdivision or by metes and bounds; address of the subject site; type of structure; proposed operation or use of the structure or site; number of employees; and the zoning district within which the subject site is located. For floodland conditional uses, such description shall also include information that is necessary for the Plan Commission to determine whether the proposed development will hamper flood flows, impair floodplain storage capacity, or cause danger to human or animal life. This additional information may include plans, certified by a registered professional engineer or land surveyor, showing elevations or contours of the ground; fill or storage elevations; first floor elevations of structures; size, location and spatial arrangement of all existing and proposed structures on the site; location and elevation of streets, water supply, and sanitary facilities; photographs showing existing land uses and vegetation upstream and downstream; soil types; and other pertinent information.

C. A topographic map, drawn to a scale of not less than 200' to 1" showing the land in question, its legal description and location; location and use of existing buildings; sanitary systems and private water supplies on such land; the high water elevation of any navigable water within 100' of the land in question; and the proposed location and use of any buildings, sanitary systems and wells on such land and within 100' of such land in question.

D. An impact Report as outlined in Section 17.0506 A or Section 17.0506 B.

E. A fee, as may be established and periodically modified by resolution of the Village Board, shall accompany each application. Such fee shall be paid by cash, check or money order to the Village. Costs incurred by the Village in obtaining legal, planning, engineering and other technical and professional advice in connection with the review of the conditional use and preparation of conditions to be imposed shall be charged to the applicant.

F. Where necessary to comply with certain Wisconsin Statutes, an application will be submitted at the appropriate time to the Department of Natural Resources.

G. The site plan and plan of operation information sheet and plan of operation approval form furnished by the Village shall be submitted prior to scheduling before the Plan Commission.

17.0503 REVIEW AND APPROVAL.

The Plan Commission shall review the site, existing and proposed structures, architectural plans, neighboring uses, parking areas, driveway locations, highway access, traffic generation and circulation, drainage, sewerage and water systems, the proposed operation, and other factors the Plan Commission determines are appropriate when considering a Conditional Use Permit.

A. Conditional Use permits shall have the following process:

1. The Applicant shall meet with Administrator or designee in a pre-application conference to discuss the application and plans.

2. The Applicant applies for a Conditional Use Permit by completing the Village application form. Incomplete applications will not be accepted. If that threshold is met, the Administrator or designee sets the application for introduction to the Plan Commission. If the minimum threshold is not met the application is returned to the petitioner with a rationale for denial.

3. The Administrator or designee introduces the CU application at the next available Plan Commission meeting after completion by the Administrator of the response to the Applicant's Impact Report if applicable under 17.0506 A or 17.0506 B. The application materials are provided to the Plan Commission along with a staff report on the matter outlining critical details of the application and code compliance. The Plan Commission concurs the application is complete and sets forth the application for public hearing or the Plan Commission finds the application incomplete and remands it to the Petitioner for completion.

a) Procedure for a Public Hearing before the Plan Commission:

1) Refer to Section 17.1401.

2) Any person may appear in person, by agent, or attorney.
3) The Plan Commission shall afford the applicant and each interested person opportunity to present evidence to rebut or offer countervailing evidence.
4) The Plan Commission shall take minutes of the proceedings and shall mark and preserve all exhibits. The Plan Commission shall, when requested by an applicant or a petitioner objecting to the action, cause the proceedings to be taken by a stenographer or by a recording device provided that the applicant or the petitioner objecting making the request pays any and all costs for the stenographer or recording device and any copies of the proceedings. If requested by both the applicant and the petitioner, the costs shall be split evenly unless otherwise agreed to by the parties.

4. At the public Hearing the Plan Commission will hear from the applicant, Village, and the public on the application's compliance with the standards of the Code. The purpose of the hearing is to gather the record, for the Petitioner to prove with substantial evidence they meet the standards of the code or the public to prove they don't and to address concerns from the public and or Plan Commission and render a decision if appropriate or to determine what remains to be discussed at the next meeting. Only substantial evidence may be considered by the Plan Commission. At the summation of the initial public hearing date the Plan Commission may give the following direction to the petitioner and to the public:

a) The remaining questions/standards that need to be proved/responded to.
b) Additional conditions to include in the CU Order that the Plan Commission deems appropriate. The Petitioner will need to prove they can meet those at the adjourned public hearing date.
c) Direction to staff to prepare the Conditional Use Order or a finding the Petitioner does not meet the standards for approval for consideration at the next meeting. The Plan Commission may also delay either of these directions to hear more evidence at the next meeting, although such delay will result in another adjourned public hearing date for due process purposes.
d) Adjourn the public hearing to a date certain.

5. At the adjourned public hearing date if the public hearing was extended for additional evidence collection, the Plan Commission will hear from the applicant, Village, and the public on evidence in support or opposition to items from 17.0503 A 4.(A. and B.) and to the CU Order itself. The purpose of the hearing is to gather the record on any additional standards imposed by the Plan Commission from the first public hearing and to gather evidence on the CU Order itself. Only substantial evidence will be considered by the Plan Commission. At the summation of the public hearing the Plan Commission will give direction requesting additional evidence and adjourn the public hearing to a date certain or close the public hearing.

6. After the closing of the public hearing the Plan Commission during its regular meeting or at a subsequent meeting where the agenda item is duly noticed shall discuss the plans and Conditional Use Order or Findings for Denial and act on the agenda item(s). The decision shall be based upon the record from the public hearings. The burden of proof is on the applicant to prove they have met the standards of the Ordinance and those set forth by the Plan Commission during the process. The Plan Commission shall render its written determination and the reasons for the same within 95 days from completion of the public hearing unless an extension is consented to in writing by the applicant. The Clerk shall mail a copy of the determination to the applicant.

7. Conditions such as landscaping, architectural design, type of construction, flood proofing, anchoring of structures, construction commencement and completion dates, sureties, lighting, fencing, planting screens, operational control, hours of operation, improved traffic circulation, deed restrictions, highway access restrictions, increased yards, parking requirements, or length of approval may be required by the Plan Commission upon its finding that these are necessary to fulfill the purpose and intent of this ordinance.

B. Compliance with all other provisions of this ordinance, such as lot width and area, yards, height, parking, loading, traffic, and highway access shall be required of all conditional uses unless otherwise specifically authorized to be modified by this Code Variances shall only be granted as provided in Section 17.1200 of this ordinance.

C. Changes in use subsequent to the initial issuance of a conditional use permit shall result in a need to change the initial conditions and shall require an amendment to the conditional use permit. Enlargement of a conditional use shall not be considered an amendment. If any holder of a conditional use permit wishes to extend or alter the terms of such permit, the permit holder must apply for an amendment to the conditional use permit through the procedure of application for conditional use permits detailed herein. The process for amending a permit shall generally follow the procedures for granting a permit as set forth in Sections 17.0501, 17.0502 and 17.0503, and shall require the filing of an application and a hearing as provided above. The Conditional Use Order may describe changes that can be made without requiring a new permit.

D. Conditional Use Orders shall generally have 5 year terms unless otherwise specified by the Plan Commission. The Orders shall have an administrative renewal process established within the order to allow for streamlined renewal of the conditional use order with a provision that allows the Plan Commission to remove the Conditional Use Order from automatic renewal if there are concerns with compliance with the CU order or concerns raised by the public about the applicant's operations. If the Plan Commission pulls the CU order from automatic approval the CU order shall remain in effect while the Plan Commission provides due process to the applicant in reviewing the CU Order and its renewal.

E. No use is hereby authorized unless the use is conducted in a lawful, orderly and peaceful manner. Nothing in a CU order shall be deemed to authorize any public or private nuisance or to constitute a waiver, exemption, or exception to any law, ordinance, order or rule of either the Village Board, County of Waukesha, State of Wisconsin, or the United States of America, or other duly constituted authority. A CU order does not constitute a building permit, nor shall a CU order constitute any other license or permit required by Village Ordinance or law.

17.0506 CONDITIONAL USES

A. The following agricultural, mining, commercial, industrial, and institutional uses shall be conditional uses and may be permitted as specified, but all Conditional Use applicants must produce a "Impact Report" detailing the impacts of said use to neighboring properties and to Village services from traffic, parking, and overflow parking, noise, odor, safety, crime, hours of operation, health and sanitation, and property maintenance issues. The Village Administrator shall analyze said report along with any supplemental reports from the Village, and its agents, to create an impact report for the application utilizing the Professional and Technical Trade standards for traffic, noise, dust, light, crime and fire prevention, etc. as a guide for the same. The Petitioner shall then prove by substantial evidence how their use will mitigate and address the findings of the impact report. In addition additional standards shall apply for specific types of uses as follows:

5. Finance, Insurance, Real Estate, and Leasing
 - a) Mini-Warehousing, small cubicle storage, and indoor storage facility
 - 1) Mini-Warehousing, small cubicle storage, and indoor storage facility in the M-1 district, if the following items are found: that traffic from the use will not reduce the functionality grade of any nearby intersection(s) without the same being mitigated; that the site is paved where any vehicles will travel, that a report from the Director of Police Services shows no substantial impact to police services or crime in the community from the operation of the facility, and that noise standards of the operations shall be at least 10% lower at the property line than the Village Ordinance. The Plan Commission must also find the design standards of the Village have fully been adhered to, and that the operation are as limited below:
 - 2) Indoor storage facility in the M-1 districts provided that no perishable products, no flammable or explosive materials, and no sales of merchandise or operation of businesses may be conducted within the facility and its sub-leased spaces. The type of facility described in this section is like

a mini-warehousing or small cubicle storage, but the rental spaces are all combined together within one larger building that has the appearance of an office/industrial building. The Site for said use must be of such a remote nature that the site operations do not detract from the appearance of the surrounding business park or neighboring properties.

1. There shall be a minimum structure setback of 40 feet from the street right-of-way. This setback may be reduced for essential services structures by the Building Inspector for the efficient delivery of services to the public.
2. There shall be two side yards totaling not less than 40 feet in width. No single side yard shall be less than 10 feet in width for structures up to 45 feet in height. Structures in excess of 45 feet in height shall increase the minimum side yards one (1) foot for each additional one (1) foot of building height over 45 feet.
 - (a) The Plan Commission may allow a structure over 45 feet to have a smaller sideyard than required by 17.0422(G)(2), but not less than 10 feet in width if it makes a finding that:

H. Erosion Control

1. See Chapter 14 of the Village Municipal Code.

I. Development Design Standards

1. The Village has established clear land use and design principals, as documented in the Village Development Design Guidelines, to guide future development planning decisions towards implementation of the Village's Smart Growth 2020 Comprehensive Plan. These guidelines are intended to serve as basic criteria during reviews, and are not to be construed as the only applicable design elements. All development proposals shall be evaluated against the adopted Village vision of maintaining a small town atmosphere within the Village, featuring a generous amount of greenspace in residential, commercial, and industrial developments.

J. Plans and Specifications to be Submitted to Plan Commission

1. To encourage an industrial use environment that is compatible with the residential character of the Village, building permits for permitted uses in Industrial Districts shall not be issued without review and approval of the Plan Commission. Said review and approval shall be concerned with general layout, building plans, ingress, egress, parking, loading and unloading, and landscape plans.

K. Waiver of Setback and Yard Requirements.

Property owners may petition the Plan Commission to request a waiver of the side yard and rear yard requirements as set forth in Section 17.0422(G)(2) and (3), respectively, to allow two existing buildings upon existing adjoining lots to be connected. Upon consideration of any such petition, the Plan Commission may waive the side yard and rear yard requirements set forth in Section 17.0422(G)(2) and/or (3), only upon finding that all of the following conditions have been satisfied:

1. Subject to the petitioner submitting to and receiving approval from the Plan Commission, proof that connecting the buildings in this manner serves the purpose of creating one cohesive industrial operation, that will operate under one common plan of operation, and that each of the combined buildings will serve the purpose of creating the same products.
2. Subject to the petitioner submitting to and receiving approval from the Plan Commission proof the lots are owned separately and will be leased by a single operator, who will conduct the industrial operation on both properties. All persons and entities, moreover, having an interest in the lots, buildings, improvements, or operations on those lots, must join in the petition.
3. Subject to the petitioner acknowledging that each separate parcel of land must still stand alone for all purposes as a separate and distinct lot, even though the buildings will be combined at the lot line, except as further restricted herein.
4. Subject to the property owners of the affected lots submitting to and receiving approval from the Plan Commission and Village Attorney of a deed restriction on each of the affected properties to state that at any time the combined building no longer operates as a single cohesive industrial operation under one plan of operation, then the two buildings must be separated such that each portion of each of the buildings fully complies with all then-existing setback and side yard requirements of the Village Zoning Ordinance.
5. Subject to the petitioner and all persons and entities having an interest in the lots, buildings, improvements and operations on these lots acknowledging in writing their acceptance of these conditions, and thereby acknowledging that failure to comply with the conditions or any one of them, may result in this waiver being null and void. In the event that this waiver becomes null and void, said persons and entities may then be in violation of the setback and side yard requirements stated in the Village Zoning Ordinance, and the Village shall have all lawful authority to enforce compliance with the Zoning Ordinance, including ordering the removal of that portion of the buildings that lie within the setback and offset areas.
6. Subject to all such other conditions as the Plan Commission may deem to be necessary or appropriate in order to preserve the intent of the Zoning Ordinance,

to preserve property values, and to protect the health, safety and welfare. Such additional conditions may include, but not be limited to: additional yard requirements elsewhere on the property; landscaping requirements; parking requirements; open space requirements; and green space requirements.

7. Subject to the petitioner's full compliance with all other applicable requirements of the Zoning Ordinance including, but not limited to providing all other plans and specifications required by the Plan Commission. Petitioner shall also fully comply with all Village, Waukesha County, State of Wisconsin or federal ordinances, statutes, codes, rules and lawful orders.

Site Plan Review Standards 17.1000

17.1002 PRINCIPLES To implement and define criteria for the purposes set forth in Section 17.1001, the following principles are established to apply to all new structures and uses and to changes or additions to existing structures and uses.

A. No structure, or use shall be established that is counter to the intent of the Design Standards nor shall the same be permitted that would have a negative impact on the maintenance of safe and healthful conditions in the Village. Structures and uses in the B-4 Central Mixed Use District shall also adhere to the intent of the Downtown Development and Design Plan.

B. No structure shall be permitted:

1. The design or exterior appearance of which is of such unorthodox or abnormal character in relation to its surroundings as to be unsightly or offensive to generally accepted taste and community standards.

2. The design or exterior appearance of which is so identical to a building on lots within 500 feet of each other that it creates excessive monotony or 17.1000 drabness, in order to realize architectural uniqueness between lots.

3. Where any exposed facade is not constructed or faced with a finished material or color which is aesthetically compatible with the other facades and presents an attractive appearance to the public and to surrounding properties.

C. The facade of a manufacturing building which faces upon a street right-of-way shall be finished with an aesthetically pleasing material. A minimum of 50 percent of a facade facing a street shall be finished with brick or decorative masonry material. Such masonry facing shall extend for a distance of at least 10 feet along the sides of the structure. Manufacturing buildings on corner lots shall have the required masonry facade facing each street. Metal buildings may be constructed in any business, manufacturing, institutional, or park district, but only by a 3/4 affirmative vote of the Plan Commission.

D. Building Scale and Mass. The relative proportion of a building to its neighboring buildings, to pedestrians and observers, or to other existing buildings shall be maintained or enhanced when new buildings are built or when existing buildings are remodeled or altered.

E. Structures and uses shall make appropriate use of open spaces and the Plan Commission may require appropriate landscaping and planting screens. All landscaped areas shall provide a mix of climax trees, tall and medium deciduous trees, tall and medium coniferous trees, deciduous and coniferous shrubs, and grasses. The appropriate mix shall be determined by the Plan Commission.

F. No articles, goods, material, finished or unfinished product, incinerators, storage tanks, refuse containers, or like equipment shall be kept outdoors, exposed to public view, or exposed to view from adjacent buildings and property. Garbage and refuse containers shall be screened from the street and from neighboring facilities. The Plan Commission may permit the outdoor display of product or merchandise when it makes a finding that such display is essential to a business or industrial use.

G. Structures and uses shall be provided with adequate services as approved by the appropriate utility and serve to implement the recommendations of Utility and Stormwater Management Plans of the Village.

H. Buildings and uses shall provide adequate parking and loading areas. No loading dock or overhead door shall face upon a street right-of-way unless a determination is made by the Plan Commission to allow the same, as described herein.

1. The Plan Commission shall not allow the same unless the Plan Commission first finds either a or b: (a) That the loading dock or overhead door is set back at least 75 feet from the street right-of-way and adequate vehicle turnaround areas have been provided on the lot, such that no maneuvering of vehicles will take place within the street right-of-way in order to access the loading dock or overhead door. (b) That the building is on a lot within the M-1 Industrial District and the building has a previously approved loading dock facing the street.

2. If the Plan Commission finds (1) (a) or (1) (b), above, then the Plan Commission may allow the loading dock or overhead door to face the street right-of-way upon consideration of the following additional factors, without limitation by reason of enumeration: 17.1000 (a) Whether the loading dock or overhead door is set back sufficiently from the street right-of-way to adequately limit the adverse visual impact of the loading dock or overhead door; (b) Whether the number of loading docks or overhead doors that are proposed to face the street right-of-way, due to their number, would create an adverse visual impact; (c) Whether the natural terrain and other existing features of the lot may affect the visual impact of the loading dock or overhead door; and (d) Whether the loading dock or overhead door will be appropriately screened with landscape berms or other landscaping.

Any other standards from Chapter 17 that may be relevant.

Comments from the public if any.

The Plan Commission continues the public hearing and:

1. Requests the Petitioner to provide additional information next month based upon the testimony at the Public Hearing in order to make a determination on the standards of the Code; or
2. Directs staff to prepare for consideration next month:
 - i. A Conditional Use Order; or
 - ii. An Order finding the Petitioner does not meet the standards.

If the Plan Commission directs a Conditional Use Order be drafted any Plan Commission member may ask for a specific condition to be drafted for consideration in the CU Order. The continued Public Hearing will allow the Plan Commission to hear testimony on the CU Order from the Petitioner and the Public and in the case of a specific condition requested by a Plan Commission member for the Village to provide evidence for the same.

If the Plan Commission directs an Order finding the Petitioner does not meet the standards the continued public hearing will allow the Plan Commission to hear testimony on the Denial Order.

Adjourn hearing to September 15, 2020 at 6:30 p.m.

D. Convene the public hearing for a Conditional Use, Plan of Operation and site plan for Jim Carberry condominium N60W22951 Silver Spring building 2 unit 4.

This site is zoned M-1. The use of indoor storage is a conditional use in the M-1 Industrial District in accordance with Section 17.0506 (A)(5)(a). The owners are purchasing a condominium unit at the Venture Space site. The 1,500 square foot unit to

will be used to store personal items. The owners must follow the Declarations and By-Laws established for this Condominium Association for items such as payment of bills and no outside storage.

The Petitioner will need to prove the following standards/condition during the Public Hearing process. The Plan Commission may add additional conditions for the Petitioner to meet in the Conditional Use. The shaded areas (if any) reflect items in the code that are unlikely to be meritorious to the application or are administrative in nature.

The Conditional Use Standards:

17.0502 APPLICATION. Applications for conditional use permits shall be made to the Village on forms furnished by the Village and shall include Sections A, E, F and G. and may include any or all of Sections B, C, and D. as determined by the Administrator:

A. Names and addresses of the applicant, owner of the site, or other appropriate entities or persons implementing the project as required by the Administrator.

B. Description of the subject site by lot, block and recorded subdivision or by metes and bounds; address of the subject site; type of structure; proposed operation or use of the structure or site; number of employees; and the zoning district within which the subject site is located. For floodland conditional uses, such description shall also include information that is necessary for the Plan Commission to determine whether the proposed development will hamper flood flows, impair floodplain storage capacity, or cause danger to human or animal life. This additional information may include plans, certified by a registered professional engineer or land surveyor, showing elevations or contours of the ground; fill or storage elevations; first floor elevations of structures; size, location and spatial arrangement of all existing and proposed structures on the site; location and elevation of streets, water supply, and sanitary facilities; photographs showing existing land uses and vegetation upstream and downstream; soil types; and other pertinent information.

C. A topographic map, drawn to a scale of not less than 200' to 1" showing the land in question, its legal description and location; location and use of existing buildings; sanitary systems and private water supplies on such land; the high water elevation of any navigable water within 100' of the land in question; and the proposed location and use of any buildings, sanitary systems and wells on such land and within 100' of such land in question.

D. An impact Report as outlined in Section 17.0506 A or Section 17.0506 B.

E. A fee, as may be established and periodically modified by resolution of the Village Board, shall accompany each application. Such fee shall be paid by cash, check or money order to the Village. Costs incurred by the Village in obtaining legal, planning, engineering and other technical and professional advice in connection with the review of the conditional use and preparation of conditions to be imposed shall be charged to the applicant.

F. Where necessary to comply with certain Wisconsin Statutes, an application will be submitted at the appropriate time to the Department of Natural Resources.

G. The site plan and plan of operation information sheet and plan of operation approval form furnished by the Village shall be submitted prior to scheduling before the Plan Commission.

17.0503 REVIEW AND APPROVAL.

The Plan Commission shall review the site, existing and proposed structures, architectural plans, neighboring uses, parking areas, driveway locations, highway access, traffic generation and circulation, drainage, sewerage and water systems, the proposed operation, and other factors the Plan Commission determines are appropriate when considering a Conditional Use Permit.

A. Conditional Use permits shall have the following process:

1. The Applicant shall meet with Administrator or designee in a pre-application conference to discuss the application and plans.

2. The Applicant applies for a Conditional Use Permit by completing the Village application form. Incomplete applications will not be accepted. If that threshold is met, the Administrator or designee sets the application for introduction to the Plan Commission. If the minimum threshold is not met the application is returned to the petitioner with a rationale for denial.

3. The Administrator or designee introduces the CU application at the next available Plan Commission meeting after completion by the Administrator of the response to the Applicant's Impact Report if applicable under 17.0506 A or 17.0506 B. The application materials are provided to the Plan Commission along with a staff report on the matter outlining critical details of the application and code compliance. The Plan Commission concurs the application is complete and sets forth the application for public hearing or the Plan Commission finds the application incomplete and remands it to the Petitioner for completion.

a) Procedure for a Public Hearing before the Plan Commission:

- 1) Refer to Section 17.1401.
- 2) Any person may appear in person, by agent, or attorney.
- 3) The Plan Commission shall afford the applicant and each interested person opportunity to present evidence to rebut or offer countervailing evidence.
- 4) The Plan Commission shall take minutes of the proceedings and shall mark and preserve all exhibits. The Plan Commission shall, when requested by an applicant or a petitioner objecting to the action, cause the proceedings to be taken by a stenographer or by a recording device provided that the applicant or the petitioner objecting making the request pays any and all costs for the stenographer or recording device and any copies of the proceedings. If requested by both the applicant and the petitioner, the costs shall be split evenly unless otherwise agreed to by the parties.

4. At the public Hearing the Plan Commission will hear from the applicant, Village, and the public on the application's compliance with the standards of the Code. The purpose of the hearing is to gather the record, for the Petitioner to prove with substantial evidence they meet the standards of the code or the public to prove they don't and to address concerns from the public and or Plan Commission and render a decision if appropriate or to determine what remains to be discussed at the next meeting. Only substantial evidence may be considered by the Plan Commission. At the summation of the initial public hearing date the Plan Commission may give the following direction to the petitioner and to the public:

- a) The remaining questions/standards that need to be proved/responded to.
- b) Additional conditions to include in the CU Order that the Plan Commission deems appropriate. The Petitioner will need to prove they can meet those at the adjourned public hearing date.
- c) Direction to staff to prepare the Conditional Use Order or a finding the Petitioner does not meet the standards for approval for consideration at the next meeting. The Plan Commission may also delay either of these directions to hear more evidence at the next meeting, although such delay will result in another adjourned public hearing date for due process purposes.
- d) Adjourn the public hearing to a date certain.

5. At the adjourned public hearing date if the public hearing was extended for additional evidence collection, the Plan Commission will hear from the applicant, Village, and the public on evidence in support or opposition to items from 17.0503 A 4.(A. and B.) and to the CU Order itself. The purpose of the hearing is to gather the record on any additional standards imposed by the Plan Commission from the first public hearing and to gather evidence on the CU Order itself. Only substantial evidence will be considered by the Plan Commission. At the summation of the public hearing the Plan Commission will give direction requesting additional evidence and adjourn the public hearing to a date certain or close the public hearing.

6. After the closing of the public hearing the Plan Commission during its regular meeting or at a subsequent meeting where the agenda item is duly noticed shall discuss the plans and Conditional Use Order or Findings for Denial and act on the agenda item(s). The decision shall be based upon the record from the public hearings. The burden of proof is on the applicant to prove they have met the standards of the Ordinance and those set forth by the Plan Commission during the process. The Plan Commission shall render

its written determination and the reasons for the same within 95 days from completion of the public hearing unless an extension is consented to in writing by the applicant. The Clerk shall mail a copy of the determination to the applicant.

7. Conditions such as landscaping, architectural design, type of construction, flood proofing, anchoring of structures, construction commencement and completion dates, sureties, lighting, fencing, planting screens, operational control, hours of operation, improved traffic circulation, deed restrictions, highway access restrictions, increased yards, parking requirements, or length of approval may be required by the Plan Commission upon its finding that these are necessary to fulfill the purpose and intent of this ordinance.

B. Compliance with all other provisions of this ordinance, such as lot width and area, yards, height, parking, loading, traffic, and highway access shall be required of all conditional uses unless otherwise specifically authorized to be modified by this Code. Variances shall only be granted as provided in Section 17.1200 of this ordinance.

C. Changes in use subsequent to the initial issuance of a conditional use permit shall result in a need to change the initial conditions and shall require an amendment to the conditional use permit. Enlargement of a conditional use shall not be considered an amendment. If any holder of a conditional use permit wishes to extend or alter the terms of such permit, the permit holder must apply for an amendment to the conditional use permit through the procedure of application for conditional use permits detailed herein. The process for amending a permit shall generally follow the procedures for granting a permit as set forth in Sections 17.0501, 17.0502 and 17.0503, and shall require the filing of an application and a hearing as provided above. The Conditional Use Order may describe changes that can be made without requiring a new permit.

D. Conditional Use Orders shall generally have 5 year terms unless otherwise specified by the Plan Commission. The Orders shall have an administrative renewal process established within the order to allow for streamlined renewal of the conditional use order with a provision that allows the Plan Commission to remove the Conditional Use Order from automatic renewal if there are concerns with compliance with the CU order or concerns raised by the public about the applicant's operations. If the Plan Commission pulls the CU order from automatic approval the CU order shall remain in effect while the Plan Commission provides due process to the applicant in reviewing the CU Order and its renewal.

E. No use is hereby authorized unless the use is conducted in a lawful, orderly and peaceful manner. Nothing in a CU order shall be deemed to authorize any public or private nuisance or to constitute a waiver, exemption, or exception to any law, ordinance, order or rule of either the Village Board, County of Waukesha, State of Wisconsin, or the United States of America, or other duly constituted authority. A CU order does not constitute a building permit, nor shall a CU order constitute any other license or permit required by Village Ordinance or law.

17.0506 CONDITIONAL USES

A. The following agricultural, mining, commercial, industrial, and institutional uses shall be conditional uses and may be permitted as specified, but all Conditional Use applicants must produce a "Impact Report" detailing the impacts of said use to neighboring properties and to Village services from traffic, parking, and overflow parking, noise, odor, safety, crime, hours of operation, health and sanitation, and property maintenance issues. The Village Administrator shall analyze said report along with any supplemental reports from the Village, and its agents, to create an impact report for the application utilizing the Professional and Technical Trade standards for traffic, noise, dust, light, crime and fire prevention, etc. as a guide for the same. The Petitioner shall then prove by substantial evidence how their use will mitigate and address the findings of the impact report. In addition additional standards shall apply for specific types of uses as follows:

- 5. Finance, Insurance, Real Estate, and Leasing
 - a) Mini-Warehousing, small cubicle storage, and indoor storage facility
 - 1) Mini-Warehousing, small cubicle storage, and indoor storage facility in the M-1 district, if the following items are

found: that traffic from the use will not reduce the functionality grade of any nearby intersection(s) without the same being mitigated; that the site is paved where any vehicles will travel, that a report from the Director of Police Services shows no substantial impact to police services or crime in the community from the operation of the facility, and that noise standards of the operations shall be at least 10% lower at the property line than the Village Ordinance. The Plan Commission must also find the design standards of the Village have fully been adhered to, and that the operation are as limited below:

- 2) Indoor storage facility in the M-1 districts provided that no perishable products, no flammable or explosive materials, and no sales of merchandise or operation of businesses may be conducted within the facility and its sub-leased spaces. The type of facility described in this section is like a mini-warehousing or small cubicle storage, but the rental spaces are all combined together within one larger building that has the appearance of an office/industrial building. The Site for said use must be of such a remote nature that the site operations do not detract from the appearance of the surrounding business park or neighboring properties.

H. Erosion Control

1. See Chapter 14 of the Village Municipal Code.

I. Development Design Standards

1. The Village has established clear land use and design principals, as documented in the Village Development Design Guidelines, to guide future development planning decisions towards implementation of the Village's Smart Growth 2020 Comprehensive Plan. These guidelines are intended to serve as basic criteria during reviews, and are not to be construed as the only applicable design elements. All development proposals shall be evaluated against the adopted Village vision of maintaining a small town atmosphere within the Village, featuring a generous amount of greenspace in residential, commercial, and industrial developments.

J. Plans and Specifications to be Submitted to Plan Commission

1. To encourage an industrial use environment that is compatible with the residential character of the Village, building permits for permitted uses in Industrial Districts shall not be issued without review and approval of the Plan Commission. Said review and approval shall be concerned with general layout, building plans, ingress, egress, parking, loading and unloading, and landscape plans.

K. Waiver of Setback and Yard Requirements.

Property owners may petition the Plan Commission to request a waiver of the side yard and rear yard requirements as set forth in Section 17.0422(G)(2) and (3), respectively, to allow two existing buildings upon existing adjoining lots to be connected. Upon consideration of any such petition, the Plan Commission may waive the side yard and rear yard requirements set forth in Section 17.0422(G)(2) and/or (3), only upon finding that all of the following conditions have been satisfied:

1. Subject to the petitioner submitting to and receiving approval from the Plan Commission, proof that connecting the buildings in this manner serves the purpose of creating one cohesive industrial operation, that will operate under one common plan of operation, and that each of the combined buildings will serve the purpose of creating the same products.
2. Subject to the petitioner submitting to and receiving approval from the Plan Commission proof the lots are owned separately and will be leased by a single operator, who will conduct the industrial operation on both properties. All persons and entities, moreover, having an interest in the lots, buildings, improvements, or operations on those lots, must join in the petition.
3. Subject to the petitioner acknowledging that each separate parcel of land must still stand alone for all purposes as a separate and distinct lot, even though the buildings will be combined at the lot line, except as further restricted herein.

4. Subject to the property owners of the affected lots submitting to and receiving approval from the Plan Commission and Village Attorney of a deed restriction on each of the affected properties to state that at any time the combined building no longer operates as a single cohesive industrial operation under one plan of operation, then the two buildings must be separated such that each portion of each of the buildings fully complies with all then-existing setback and side yard requirements of the Village Zoning Ordinance.
5. Subject to the petitioner and all persons and entities having an interest in the lots, buildings, improvements and operations on these lots acknowledging in writing their acceptance of these conditions, and thereby acknowledging that failure to comply with the conditions or any one of them, may result in this waiver being null and void. In the event that this waiver becomes null and void, said persons and entities may then be in violation of the setback and side yard requirements stated in the Village Zoning Ordinance, and the Village shall have all lawful authority to enforce compliance with the Zoning Ordinance, including ordering the removal of that portion of the buildings that lie within the setback and offset areas.
6. Subject to all such other conditions as the Plan Commission may deem to be necessary or appropriate in order to preserve the intent of the Zoning Ordinance, to preserve property values, and to protect the health, safety and welfare. Such additional conditions may include, but not be limited to: additional yard requirements elsewhere on the property; landscaping requirements; parking requirements; open space requirements; and green space requirements.
7. Subject to the petitioner's full compliance with all other applicable requirements of the Zoning Ordinance including, but not limited to providing all other plans and specifications required by the Plan Commission. Petitioner shall also fully comply with all Village, Waukesha County, State of Wisconsin or federal ordinances, statutes, codes, rules and lawful orders.

Site Plan Review Standards 17.1000

17.1002 PRINCIPLES To implement and define criteria for the purposes set forth in Section 17.1001, the following principles are established to apply to all new structures and uses and to changes or additions to existing structures and uses.

A. No structure, or use shall be established that is counter to the intent of the Design Standards nor shall the same be permitted that would have a negative impact on the maintenance of safe and healthful conditions in the Village. Structures and uses in the B-4 Central Mixed Use District shall also adhere to the intent of the Downtown Development and Design Plan.

B. No structure shall be permitted:

1. The design or exterior appearance of which is of such unorthodox or abnormal character in relation to its surroundings as to be unsightly or offensive to generally accepted taste and community standards.
2. The design or exterior appearance of which is so identical to a building on lots within 500 feet of each other that it creates excessive monotony or 17.1000 drabness, in order to realize architectural uniqueness between lots.
3. Where any exposed facade is not constructed or faced with a finished material or color which is aesthetically compatible with the other facades and presents an attractive appearance to the public and to surrounding properties.

C. The facade of a manufacturing building which faces upon a street right-of-way shall be finished with an aesthetically pleasing material. A minimum of 50 percent of a facade facing a street shall be finished with brick or decorative masonry material. Such masonry facing shall extend for a distance of at least 10 feet along the sides of the structure. Manufacturing buildings on corner lots shall have the required masonry facade facing each street. Metal buildings may be constructed in any business, manufacturing, institutional, or park district, but only by a 3/4 affirmative vote of the Plan Commission.

D. Building Scale and Mass. The relative proportion of a building to its neighboring buildings, to pedestrians and observers, or to other existing buildings shall be maintained or enhanced when new buildings are built or when existing buildings are remodeled or altered.

E. Structures and uses shall make appropriate use of open spaces and the Plan Commission may require appropriate landscaping and planting screens. All landscaped areas shall provide a mix of climax trees, tall and medium deciduous trees, tall and medium coniferous trees, deciduous and coniferous shrubs, and grasses. The appropriate mix shall be determined by the Plan Commission.

F. No articles, goods, material, finished or unfinished product, incinerators, storage tanks, refuse containers, or like equipment shall be kept outdoors, exposed to public view, or exposed to view from adjacent buildings and property. Garbage and refuse containers shall be screened from the street and from neighboring facilities. The Plan Commission may permit the outdoor display of product or merchandise when it makes a finding that such display is essential to a business or industrial use.

G. Structures and uses shall be provided with adequate services as approved by the appropriate utility and serve to implement the recommendations of Utility and Stormwater Management Plans of the Village.

H. Buildings and uses shall provide adequate parking and loading areas. No loading dock or overhead door shall face upon a street right-of-way unless a determination is made by the Plan Commission to allow the same, as described herein.

1. The Plan Commission shall not allow the same unless the Plan Commission first finds either a or b: (a) That the loading dock or overhead door is set back at least 75 feet from the street right-of-way and adequate vehicle turnaround areas have been provided on the lot, such that no maneuvering of vehicles will take place within the street right-of-way in order to access the loading dock or overhead door. (b) That the building is on a lot within the M-1 Industrial District and the building has a previously approved loading dock facing the street.

2. If the Plan Commission finds (1) (a) or (1) (b), above, then the Plan Commission may allow the loading dock or overhead door to face the street right-of-way upon consideration of the following additional factors, without limitation by reason of enumeration: 17.1000 (a) Whether the loading dock or overhead door is set back sufficiently from the street right-of-way to adequately limit the adverse visual impact of the loading dock or overhead door; (b) Whether the number of loading docks or overhead doors that are proposed to face the street right-of-way, due to their number, would create an adverse visual impact; (c) Whether the natural terrain and other existing features of the lot may affect the visual impact of the loading dock or overhead door; and (d) Whether the loading dock or overhead door will be appropriately screened with landscape berms or other landscaping.

Any other standards from Chapter 17 that may be relevant.

Comments from the public if any.

The Plan Commission continues the public hearing and:

1. Requests the Petitioner to provide additional information next month based upon the testimony at the Public Hearing in order to make a determination on the standards of the Code; or
2. Directs staff to prepare for consideration next month:
 - i. A Conditional Use Order; or
 - ii. An Order finding the Petitioner does not meet the standards.

If the Plan Commission directs a Conditional Use Order be drafted any Plan Commission member may ask for a specific condition to be drafted for consideration in the CU Order.

The continued Public Hearing will allow the Plan Commission to hear testimony on the CU Order from the Petitioner and the Public and in the case of a specific condition requested by a Plan Commission member for the Village to provide evidence for the same.

If the Plan Commission directs an Order finding the Petitioner does not meet the standards the continued public hearing will allow the Plan Commission to hear testimony on the Denial Order.

Adjourn hearing to September 15, 2020 at 6:30 p.m.

This site is zoned CR-1. The Plan Commission may allow this based on:

17.0704 ACCESSORY USE REGULATIONS

Accessory uses are permitted in any district as may be specified in the appropriate district regulations or herein. An accessory use building permit shall be required where specifically noted in this Section. Accessory uses are permitted only after their principal structure is present or under construction. - A. Accessory Uses and Detached Accessory Structures shall be permitted in the rear yard only, unless otherwise specified. Accessory structures shall not occupy more than 20 percent of the rear yard in all districts except the business and manufacturing districts where such uses and structures shall not occupy more than 50 percent of the rear yard area. When permitted in the side or front yard, accessory structures shall not occupy more than 10 percent of the yard area.
- (2) Accessory buildings, such as garden or utility sheds, playhouses, or gazebos, upon the issuance of a building permit. Accessory buildings shall be located at least 10 feet from the principal structure; shall be placed on a pad of concrete, asphalt, wood, or metal; shall not exceed 250 square feet in area; shall be located not closer than five (5) feet to a lot line; and shall not exceed 15 feet in height. The size of the owner's lot is over an acre, 46,318 square feet. The Majestic Heights Homeowners Association has approved the improvements. Staff feels the proposed building and addition of a pool fits the neighborhood and the lot.

Policy Questions:

- 1. Are there any concerns with the accessory building?

Staff Recommendation: Staff recommends approval of the 600 square foot accessory building for the property located at W232N7652 Sun Valley Ct subject to the conditions of Exhibit A.

Existing drive remains 62x19 ft., second drive will be 12x53 ft. with the driveways to be connected by a 12 foot wide circular drive. Mr. Yakich stated he would incur cost to cut the curb for the second drive. He hopes to keep the two pine trees in the front yard, but knows the maple tree will need to come down for construction of the circular drive. The second drive is for additional parking. The original drive is on the property line so it cannot be extended. Drives will be concrete. Mr. Yakich stated safety was his first concern and wished to add the circular drive because he did not want his front yard to become all concrete and circular drives had been approved by the Village in the past.

Plan Commission inquired if the Village had a code restricting the number of vehicles parked on a drive. Staff informed the Plan Commissioners that the Village does not have a code limiting the number of vehicles parked on a drive. Attorney Macy reminded the Commission that vehicles can only be parked on a paved surface and we can regulate where these paved surfaces are – this limits parking.

Mr. Johnson noted that this design is still two driveways connected with an arch. Per code, two drives are not permitted. President Goetz stated the Village's main concern with this request is safety.

Mrs. Neu, Village Engineer stated the drive opposite Champeny is the safer option. The northern drive elevation drops 2.5 to 3 feet from current drive. This drop in elevation plus the hill south of Champeny creates a shorter stopping site distance for cars traveling on Maple Avenue which makes exiting the northern drive more dangerous. The circular drives Mr. Yakich referenced as being in Sussex were put in place when those properties were in the Town of Lisbon, so before they came into the Village. Decision to permit the northern drive is a policy decision for the Plan Commission to determine. Owner is responsible for building all approaches if this is approved.

Comments from the Plan Commission: Mr. Johnson inquired if an alternate proposal could be considered. Staff replied that is up to the owner to provide. Mrs. Anderson questioned if the north drive could be a pad to park on, but not a drive that exited onto Maple. Staff replied that a parking pad is not permitted in a front yard. Staff also mentioned that the building inspector could determine if the current drive approach could be widened in some manner.

President Goetz stated he could not ignore the Village Engineer's safety concerns and felt the second drive should not be permitted. Commissioners Johnson, Adkins and Anderson agreed with that assessment. Commissioner Schauer also agreed and stated that widening the existing drive approach

and creating a “L” to turn around in might be a solution. Commissioner Adkins agreed that exiting forward instead of backing out seemed the safer option.

A motion by Goetz, seconded by Johnson to deny the he request for the multiple driveways for the property at W239N6638 Maple Avenue based upon concerns from the Village Engineer and availability of alternative options.
Motion carried 6-0.

Now that the Maple Avenue Road project is nearing completion, the petitioner would like the Plan Commission to reconsider his request;

With the almost finished Maple Ave project it is becoming very clear on how much drive way the Village of Sussex is now actually taking from us. We also have noticed the elevation of our drive way is now much higher then previous Please let us know what we need in order to get on the agenda asap. We want to hopefully have this approved prior to pouring concrete in front of our home.

The property owners are requesting to add a second driveway along Maple Avenue near Champeny Road due to the difficulties of backing out of the current drive at this location. In accordance with Section 17.0604 B. the Plan Commission may consider multiple driveways:

- B. No More Than One Driveway Opening shall be permitted for any property except as otherwise authorized herein. The Plan Commission may permit multiple driveways or circular driveways in any district where such grant is necessary to prevent a traffic hazard that would otherwise be caused by a single driveway. A traffic hazard, for purposes of this subsection, exists in only the following limited circumstances:
1. Exiting the driveway requires backing out onto a State or County Highway or arterial street, and one of the following circumstances is present:
 - (a) The sight distance where the driveway meets the roadway is less than 200 feet and the roadway has a posted speed limit of 25 mph or more.
 - (b) The driveway is located within 36 feet of an intersection.

The Plan Commission may also permit multiple or circular driveways for reasons other than traffic hazards where lots have a frontage of at least 150 feet and the Plan Commission determines that sufficient separation exists between the driveway locations and the property lines.

Notwithstanding the foregoing, multiple or circular driveways shall not be permitted if they would violate any requirement of this Code or other applicable laws.

The request does not meet the requirements of B.1. but the Plan Commission may grant the multiple driveway under the requirements underlined above. The frontage for the property is 189 feet, the distance between each drive will be 54 feet. The existing driveway and the new driveway are more than three feet from the lot lines and meet the code requirements.

The Village engineer still has concerns about allowing a second driveway location at this property and will be present at the meeting to discuss those concerns. The Village Engineer would recommend a driveway flair be established in front of the house to allow drivers to exit onto the street forward facing vs. a secondary access point in such close and offset proximity to the intersection.

Policy Question:

1. Does the request meet the requirements?
2. Are there any concerns with the multiple driveways?

Action Items:

1. Act on request.

Staff Recommendation: Staff recommends the Plan Commission deny the request for the multiple driveways for the property at W239N6638 Maple Avenue based upon concerns from the Village Engineer and availability of alternative options.

06. Other Items for future discussion.

07. Adjournment.

Dear Kasey:

Per your request, here is my explanation on our plan for a conditional use permit for the Venture Space Condominium we purchased.

I retired from our family business after 45 years of service to them. I retired on June 1st, 2019 and am age 65 at this point.

I purchased building #2, unit #3, with the intent of putting my winter things in the unit for the summer and my summer things in for the winter. Being the fussy person, I am, I insist on keeping my things indoors and maintaining each piece in as much of a like new condition as I can. Including my cars.

I like to putz, as they call it, so much of my time will be working on my things and keeping them repaired and clean.

Being in business most of my life I have no interest in starting a new business. Everything will be strictly personal.

I have filled out the applicable forms to the best of my ability and have included the check as you requested.

Kasey, if there is anything else you need please let me know.

VILLAGE OF SUSSEX ORDER
GRANTING A CONDITIONAL USE AND PRESCRIBING CONDITIONS FOR
TIMOTHY CARBERRY
USE OF INDOOR STORAGE FACILITY
IN THE VILLAGE OF SUSSEX

WHEREAS, an application has been filed by Timothy Carberry to be owner of the subject property (hereinafter collectively “Petitioners”); and

WHEREAS, the Petitioner is requesting a conditional use permit be granted pursuant to the Zoning Ordinance for the Village of Sussex for property at N60W22951 Silver Spring building 2 unit 3 in the Village of Sussex, Wisconsin, all as described on **Exhibit A** attached hereto and incorporated herein (hereinafter “Subject Property”); and

WHEREAS, upon referral of the application by the Village Clerk, the Plan Commission for the Village of Sussex determined that the application met all requirements as set forth in Section 17.0502 and scheduled a public hearing thereon as soon as practical; and

WHEREAS, upon publication of the required “Notice of Public Hearing” and mailing of said “Notice of Public Hearing” to all parties-in-interest as required by Section 17.1401 of the Zoning Ordinance, the Plan Commission held a public hearing on August 18, 2020 and September 15, 2020 as required by Section 17.0505 of the Zoning Ordinance for the Village of Sussex; and

WHEREAS, the Plan Commission has followed the review procedures of Section 17.0503 by reviewing the site, existing and proposed structures, architectural plans, neighboring uses, parking areas, driveway locations, highway access traffic generation and circulation, drainage, sewerage and water systems, and the proposed operation; and

WHEREAS, the Subject Property is zoned M-1 Industrial District; and

WHEREAS, the Petitioner will have indoor storage facility for personal use or rental which may be permitted as a conditional use pursuant to Section 17.0506 (A)(5)(a) of the Village of Sussex Zoning Ordinance; and

WHEREAS, the Plan Commission finds the application is consistent with the M-1 Industrial District which is intended to provide for the orderly development of manufacturing or industrial operations, which, on the basis of actual physical and operational characteristics, would not be detrimental to the surrounding area or to the Village as a whole by reason of smoke, noise, dust, odor, traffic, physical appearance, or other similar factors; and to establish such regulatory controls as will reasonably ensure compatibility with the surrounding area in this respect. Uses which are generally perceived as being of a nuisance nature or considered to be a hazard to human life should not be permitted as a matter of right, but permitted only as conditional uses after careful study and review. Listed conditional uses should not normally abut directly upon residential district; and

WHEREAS, the Plan Commission for the Village of Sussex, following the public hearing and necessary study and investigation, having given the matter due consideration, and having based

its determination on the effect of granting such conditional use permit on the health, general welfare, safety, and economic prosperity of the Village and specifically of the immediate neighborhood in which said use will be located, and having given due consideration to the municipal problems involved, as well as impact on the surrounding properties as to noise, dust, smoke, odor, or other similar factors, hereby determines that the use will not violate the spirit or intent of the Zoning Ordinance for the Village of Sussex, will not be contrary to the public health, safety or general welfare of the Village of Sussex, will not be a hazardous, harmful, noxious, offensive, or nuisance by reason of smoke, dust, odor, or other similar factors and will not for any other reason cause a substantial adverse effect on the property values and general desirability of the neighborhood as long as the conditional use is operated pursuant to the following conditions and in strict compliance with the same.

 16. Review. The Plan Commission for the Village of Sussex reserves its right to review the operation and amend the conditional use permit as the Plan Commission for the Village of Sussex deems appropriate
- B. Any use not specifically listed as permitted shall be considered to be prohibited except as may be otherwise specifically provided herein. In case of a question as to the classification of use, the question shall be submitted to the Plan Commission for the Village of Sussex for determination.
 - C. No use is hereby authorized unless the use is conducted in a lawful, orderly and peaceful manner. Nothing in this order shall be deemed to authorize any public or private nuisance or to constitute a waiver, exemption or exception to any law, ordinance, order or rule of either the Village of Sussex, the County of Waukesha, the State of Wisconsin, the United States of America or other duly constituted authority, except only to the extent that it authorizes the use of the Subject Property above described in any specific respects described herein. This order shall not be deemed to constitute a building permit, nor shall this order constitute any other license or permit required by Village ordinance or other law.
 - D. This conditional use hereby authorized shall be confined to the Subject Property described, without extension or expansion other than as noted herein, and shall not vary from the purposes herein mentioned unless expressly authorized in writing by the Plan Commission for the Village of Sussex as being in compliance with all pertinent ordinances.
 - E. Should the permitted conditional use be abandoned in any manner, or discontinued in use for twelve (12) months, or continued other than in strict conformity with the conditions of the original approval, or should the Petitioner be delinquent in payment of any monies due and owing to the municipality, or should a change in the character of the surrounding area or the use itself cause it to be no longer compatible with the surrounding area or for similar cause based upon consideration of public health, safety or welfare, the conditional use may be terminated by action of the Plan Commission for the Village of Sussex.
 - F. Any change, addition, modification, alteration and/or amendment of any aspect of this conditional use, including but not limited to a change in the use, premises, lands or owners, other than as specifically authorized herein, shall require a new permit and all Village procedures in place at the time must be followed.

- G. Unless this conditional use permit expressly states otherwise, plans that are specifically required by this conditional use order may be amended upon the prior approval of the Plan Commission if the Plan Commission finds the plan amendment to be minor and consistent with the conditional use permit. Any change in any plan that the Plan Commission, in its sole discretion, finds to be substantial shall require a new permit, and all procedures in place at the time must be followed.
- H. Should any paragraph or phrase of this conditional use permit be determined by a Court to be unlawful, illegal, or unconstitutional, said determination as to the particular phrase or paragraph shall not void the rest of the conditional use and the remainder shall continue in full force and effect.
- I. This conditional use permit shall be effective for an initial term that ends five years from the date of January 1 of the year the conditional use is approved. During the final year of the 5 year term of the CU the Village Administrator or designee shall examine the record to determine if concerns about the operation have been raised in writing by the public, a governmental body or official, or anyone else, and shall also review the site and the adjoining area for compliance with the conditions of the CU. If based upon that review the use of the property is compatible with the surrounding areas and the Petitioner is in substantial compliance with all terms of this conditional use agreement, then, in that event, the Conditional Use can be automatically renewed for another 5 year term. If based upon that review the Village Administrator finds concerns about compliance with the conditions of the Conditional Use, the Petitioner shall be brought back before the Plan Commission for consideration of the renewal. The Petitioner shall have the responsibility to apply for the renewal by January 30th of the final year of the term of the CU. Failure of Petitioner to apply for the renewal as provided herein shall be deemed a violation of the conditions of the conditional use and may serve as a basis for termination of the conditional use permit. The Plan Commission for the Village of Sussex may add additional conditions at any time.
1. Where the changing character of the surrounding area causes the original conditional use or subsequent approved amendments thereto to no longer be compatible with the surrounding area, or for similar cause, based upon consideration for the public welfare, the conditional use order and any subsequent approved amendments or changes may be terminated by action of the Plan Commission of the Village of Sussex. Such use shall thereafter be classified as a legal nonconforming use as it was permitted to exist on the day it was terminated.
 2. Where this permitted conditional use does not continue in conformity with the conditions of the original approval or subsequent approved amendments or changes, the conditional use grant and any subsequent approved amendments thereto may be amended or terminated by action of the Plan Commission for the Village of Sussex. The Plan Commission for the Village of Sussex may require complete termination of such use.
 3. This conditional use may be reviewed annually. Additionally, this conditional use may be reviewed by the Plan Commission for the Village of Sussex at any time upon complaint or upon Plan Commission initiative.

- J. Upon acceptance by Petitioner of this conditional use permit, all prior conditional use permits granted to the Subject Property are hereby revoked and terminated.
- K. If any aspect of this conditional use permit or any aspect of any plan contemplated and approved under this conditional use is in conflict with any other aspect of the conditional use or any aspect of any plan of the conditional use, the more restrictive provision shall be controlling as determined by the Plan Commission for the Village of Sussex.
- L. If any paragraph or phrase of this conditional use order is declared by a Court of competent jurisdiction to be invalid, unlawful, or unenforceable, such decision shall apply only to the specific paragraph or phrase thereof directly specified in the decision and shall not affect the validity of any other provisions, sections, or portions thereof of this order. The remainder of the order shall remain in full force and effect.

Let copies of this order be filed in the permanent records of the Plan Commission for the Village of Sussex, and let copies be sent to the proper Village authorities and the Petitioner.

Dear Kasey:

Per your request, here is my explanation on our plan for a conditional use permit for the Venture Space Condominium we purchased.

I retired from our family business after 45 years of service to them. I retired on June 1st, 2019 and am age 65 at this point.

I purchased building #2, unit #3, with the intent of putting my winter things in the unit for the summer and my summer things in for the winter. Being the fussy person, I am, I insist on keeping my things indoors and maintaining each piece in as much of a like new condition as I can. Including my cars.

I like to putz, as they call it, so much of my time will be working on my things and keeping them repaired and clean.

Being in business most of my life I have no interest in starting a new business. Everything will be strictly personal.

I have filled out the applicable forms to the best of my ability and have included the check as you requested.

Kasey, if there is anything else you need please let me know.

VILLAGE OF SUSSEX ORDER
GRANTING A CONDITIONAL USE AND PRESCRIBING CONDITIONS FOR
JAMES CARBERRY
USE OF INDOOR STORAGE FACILITY
IN THE VILLAGE OF SUSSEX

WHEREAS, an application has been filed by James Carberry to be owner of the subject property (hereinafter collectively “Petitioners”); and

WHEREAS, the Petitioner is requesting a conditional use permit be granted pursuant to the Zoning Ordinance for the Village of Sussex for property at N60W22951 Silver Spring building 2 unit 4 in the Village of Sussex, Wisconsin, all as described on **Exhibit A** attached hereto and incorporated herein (hereinafter “Subject Property”); and

WHEREAS, upon referral of the application by the Village Clerk, the Plan Commission for the Village of Sussex determined that the application met all requirements as set forth in Section 17.0502 and scheduled a public hearing thereon as soon as practical; and

WHEREAS, upon publication of the required “Notice of Public Hearing” and mailing of said “Notice of Public Hearing” to all parties-in-interest as required by Section 17.1401 of the Zoning Ordinance, the Plan Commission held a public hearing on August 18, 2020 and September 15, 2020 as required by Section 17.0505 of the Zoning Ordinance for the Village of Sussex; and

WHEREAS, the Plan Commission has followed the review procedures of Section 17.0503 by reviewing the site, existing and proposed structures, architectural plans, neighboring uses, parking areas, driveway locations, highway access traffic generation and circulation, drainage, sewerage and water systems, and the proposed operation; and

WHEREAS, the Subject Property is zoned M-1 Industrial District; and

WHEREAS, the Petitioner will have indoor storage facility for personal use or rental which may be permitted as a conditional use pursuant to Section 17.0506 (A)(5)(a) of the Village of Sussex Zoning Ordinance; and

WHEREAS, the Plan Commission finds the application is consistent with the M-1 Industrial District which is intended to provide for the orderly development of manufacturing or industrial operations, which, on the basis of actual physical and operational characteristics, would not be detrimental to the surrounding area or to the Village as a whole by reason of smoke, noise, dust, odor, traffic, physical appearance, or other similar factors; and to establish such regulatory controls as will reasonably ensure compatibility with the surrounding area in this respect. Uses which are generally perceived as being of a nuisance nature or considered to be a hazard to human life should not be permitted as a matter of right, but permitted only as conditional uses after careful study and review. Listed conditional uses should not normally abut directly upon residential district; and

WHEREAS, the Plan Commission for the Village of Sussex, following the public hearing and necessary study and investigation, having given the matter due consideration, and having based

its determination on the effect of granting such conditional use permit on the health, general welfare, safety, and economic prosperity of the Village and specifically of the immediate neighborhood in which said use will be located, and having given due consideration to the municipal problems involved, as well as impact on the surrounding properties as to noise, dust, smoke, odor, or other similar factors, hereby determines that the use will not violate the spirit or intent of the Zoning Ordinance for the Village of Sussex, will not be contrary to the public health, safety or general welfare of the Village of Sussex, will not be a hazardous, harmful, noxious, offensive, or nuisance by reason of smoke, dust, odor, or other similar factors and will not for any other reason cause a substantial adverse effect on the property values and general desirability of the neighborhood as long as the conditional use is operated pursuant to the following conditions and in strict compliance with the same.

THEREFORE, IT IS ORDERED AS FOLLOWS:

Commencing upon the date hereof, a conditional use permit for the Subject Property is hereby granted. The conditional use permit granted herein shall apply only to the specific use of the Subject Property by the Petitioners for indoor storage facility for personal use or rental as well as permitted and accessory uses set forth in Section 17.0422 M-1 Industrial District and auxiliary uses as set forth in Section 17.0710 if approved as part of a Plan of Operation and site plan; and the conditional use permit shall continue in existence only so long as the conditional use is operated in compliance with this permit. This conditional use permit is subject to initial and continued compliance with each and every one of the following conditions, restrictions, and limitations.

If the Plan Commission for the Village of Sussex feels, in its sole discretion, that the amendment or change to any plan contemplated herein is substantial, the amendment or change will require a new permit and all Village procedures in place at the time must be followed.

 - B. Plan of Operation. The Petitioners shall submit to and receive approval from the Village Plan Commission a specific plan of operation for the Subject Property, the same to be in substantial conformance with the preliminary plans on file and with the presentations at the Meetings. If the complaint was made in writing, the copy provided to the Village Administrator shall include a copy of the complaint.
14. No Nuisance. The Village reserves the right to rescind its approval of this conditional use permit based upon the finding that the use is incompatible and a nuisance to surrounding uses, that the use is not in the public interest, or that the use adversely affects the use of adjacent lands, provided the Petitioner is given an opportunity to be heard on the matter and, if so rescinded the Petitioner and Subject

Property shall thereupon be immediately subject to the Village of Sussex Zoning Ordinances , as applicable, regarding the use of the Subject Property as though no conditional use permit was granted.

15. Subject to Acceptance. Subject to the Owner approving in writing the issuance of the same and Petitioner acknowledging in writing that they have received a copy of this conditional approval, that they understand and accept the same, and that upon failure to satisfy these conditions this approval is void, and the same is deemed to not have been approved, and the Petitioner will therefore need to re-commence the application process.
 16. Review. The Plan Commission for the Village of Sussex reserves its right to review the operation and amend the conditional use permit as the Plan Commission for the Village of Sussex deems appropriate
- B. Any use not specifically listed as permitted shall be considered to be prohibited except as may be otherwise specifically provided herein. In case of a question as to the classification of use, the question shall be submitted to the Plan Commission for the Village of Sussex for determination.
 - C. No use is hereby authorized unless the use is conducted in a lawful, orderly and peaceful manner. Nothing in this order shall be deemed to authorize any public or private nuisance or to constitute a waiver, exemption or exception to any law, ordinance, order or rule of either the Village of Sussex, the County of Waukesha, the State of Wisconsin, the United States of America or other duly constituted authority, except only to the extent that it authorizes the use of the Subject Property above described in any specific respects described herein. This order shall not be deemed to constitute a building permit, nor shall this order constitute any other license or permit required by Village ordinance or other law.
 - D. This conditional use hereby authorized shall be confined to the Subject Property described, without extension or expansion other than as noted herein, and shall not vary from the purposes herein mentioned unless expressly authorized in writing by the Plan Commission for the Village of Sussex as being in compliance with all pertinent ordinances.
 - E. Should the permitted conditional use be abandoned in any manner, or discontinued in use for twelve (12) months, or continued other than in strict conformity with the conditions of the original approval, or should the Petitioner be delinquent in payment of any monies due and owing to the municipality, or should a change in the character of the surrounding area or the use itself cause it to be no longer compatible with the surrounding area or for similar cause based upon consideration of public health, safety or welfare, the conditional use may be terminated by action of the Plan Commission for the Village of Sussex.
 - F. Any change, addition, modification, alteration and/or amendment of any aspect of this conditional use, including but not limited to a change in the use, premises, lands or owners, other than as specifically authorized herein, shall require a new permit and all Village procedures in place at the time must be followed.

- G. Unless this conditional use permit expressly states otherwise, plans that are specifically required by this conditional use order may be amended upon the prior approval of the Plan Commission if the Plan Commission finds the plan amendment to be minor and consistent with the conditional use permit. Any change in any plan that the Plan Commission, in its sole discretion, finds to be substantial shall require a new permit, and all procedures in place at the time must be followed.
- H. Should any paragraph or phrase of this conditional use permit be determined by a Court to be unlawful, illegal, or unconstitutional, said determination as to the particular phrase or paragraph shall not void the rest of the conditional use and the remainder shall continue in full force and effect.
- I. This conditional use permit shall be effective for an initial term that ends five years from the date of January 1 of the year the conditional use is approved. During the final year of the 5 year term of the CU the Village Administrator or designee shall examine the record to determine if concerns about the operation have been raised in writing by the public, a governmental body or official, or anyone else, and shall also review the site and the adjoining area for compliance with the conditions of the CU. If based upon that review the use of the property is compatible with the surrounding areas and the Petitioner is in substantial compliance with all terms of this conditional use agreement, then, in that event, the Conditional Use can be automatically renewed for another 5 year term. If based upon that review the Village Administrator finds concerns about compliance with the conditions of the Conditional Use, the Petitioner shall be brought back before the Plan Commission for consideration of the renewal. The Petitioner shall have the responsibility to apply for the renewal by January 30th of the final year of the term of the CU. Failure of Petitioner to apply for the renewal as provided herein shall be deemed a violation of the conditions of the conditional use and may serve as a basis for termination of the conditional use permit. The Plan Commission for the Village of Sussex may add additional conditions at any time.
1. Where the changing character of the surrounding area causes the original conditional use or subsequent approved amendments thereto to no longer be compatible with the surrounding area, or for similar cause, based upon consideration for the public welfare, the conditional use order and any subsequent approved amendments or changes may be terminated by action of the Plan Commission of the Village of Sussex. Such use shall thereafter be classified as a legal nonconforming use as it was permitted to exist on the day it was terminated.
 2. Where this permitted conditional use does not continue in conformity with the conditions of the original approval or subsequent approved amendments or changes, the conditional use grant and any subsequent approved amendments thereto may be amended or terminated by action of the Plan Commission for the Village of Sussex. The Plan Commission for the Village of Sussex may require complete termination of such use.
 3. This conditional use may be reviewed annually. Additionally, this conditional use may be reviewed by the Plan Commission for the Village of Sussex at any time upon complaint or upon Plan Commission initiative.

- J. Upon acceptance by Petitioner of this conditional use permit, all prior conditional use permits granted to the Subject Property are hereby revoked and terminated.
- K. If any aspect of this conditional use permit or any aspect of any plan contemplated and approved under this conditional use is in conflict with any other aspect of the conditional use or any aspect of any plan of the conditional use, the more restrictive provision shall be controlling as determined by the Plan Commission for the Village of Sussex.
- L. If any paragraph or phrase of this conditional use order is declared by a Court of competent jurisdiction to be invalid, unlawful, or unenforceable, such decision shall apply only to the specific paragraph or phrase thereof directly specified in the decision and shall not affect the validity of any other provisions, sections, or portions thereof of this order. The remainder of the order shall remain in full force and effect.

Let copies of this order be filed in the permanent records of the Plan Commission for the Village of Sussex, and let copies be sent to the proper Village authorities and the Petitioner.
