7. Ordinance 871 to move Citizen Committee appointment terms from May 1st to April 30th to July 1st to June 30th.

Trustee Bartzen questioned if the appointments should be made even later to allow for more transition time for a new Village President. Trustee Adkins expressed concern about appointments potentially occurring in two separate months, noting that this could be confusing for the public. Trustee Bartzen asked if staff should post the openings on a specific schedule each year, and if existing appointees should complete the application. There was consensus to post the openings on March 1st each year and that existing appointees should apply. Each person only needs to apply once so the Village has the application on file. Staff will create one application for all appointments. Candidates will be able to check which committees, commissions, or boards they are interested in. The application will be available on the website throughout the year.

A motion by Bartzen, seconded by Uecker to recommend to the Village Board approval of Ordinance 871 as presented. Motion carried 4-0

10. Meeting Recording and Records Retention Compliance

There was discussion about the policy questions outlined in the staff memo. The consensus was to record Village Board and Plan Commission meetings and make them available on the Village website for three months. No commenting will be allowed on the recordings. Staff will explore more options for hosting the recordings, including options offered through the website vendor. This agenda item will be discussed again at the next Finance Committee meeting.

12. Topics for Future Agendas

MEMORANDUM

To: Finance and Personnel Committee
From: Kelsey McElroy-Anderson, Assistant Village Administrator
Date: January 28, 2021
Re: Meeting Recordings Online

The Finance and Personnel Committee discussed this matter at the January meeting and directed staff to complete additional research, which is outlined below.

The consensus from the Committee during the January meeting was to record Village Board and Plan Commission meetings and make them available through the Village website for three months. No commenting will be allowed on the recordings. Staff will retain copies of the meetings for seven years in compliance with open records laws. The estimated storage cost is \$50 per year. Staff would like to do a trial run in February and would likely be able to implement the plan in late March.

Staff was directed to explore more options for hosting the recordings, including options offered through the existing website vendor.

Platform	Year 1	Year 2	Considerations
Granicus (Website Vendor)	\$9,552	\$5,052	This option would be embedded within the Village's existing website; the agenda is viewable on the side; and meeting items can be indexed. See www.manassasva.gov as an example.
YouTube	Free	Free	The benefits of YouTube include that it's free; offers unlimited storage for an indefinite time period; offers free closed captioning; there's a high level of familiarity within the community; and the Village already has an account linked on the website. The major disadvantage is that it uses ads, which can't be disabled. The Village could either embed the video on our website or could post a link to view the video on YouTube.
Vimeo	\$240	\$240	Vimeo is ad free and offers a large amount of storage (1 TB) for a relatively low cost. The Village could either embed the video on our website or could post a link to view the video on Vimeo. Vimeo also has a few enhanced security features, including the ability to specify which websites have permission to embed our videos.

Remaining Policy Questions

- Which platform should be used to host the recordings, and does the Committee have a preference on if the video is embedded on the Village's website?
